

WHO ARE WE?

We provide globally unique and globally traceable identification numbers that are uploaded to a secure account at time of order. Tags with corresponding numbers are then delivered via USPS

We provide a miniaturized enterprise asset management (mEAM) system for tiny government contractors, tiny defense contractors and tiny municipalities

We provide automated uploads and fulfillment with an initial (expandable) capacity of 100 million globally unique and globally traceable identification numbers

DIFFERENTIATORS

Only Company of Our Kind: *MyPropertyID* is first-to-market with an independently generated, globally unique and globally traceable identification number.

Our strategy is a miniaturized asset management system that exceeds the standards for labeling, recording and administering of government furnished property (GFP).

- Our strategy is a state-of-the-art solution that exceeds the property clause of the Federal Acquisition Regulation (FAR) 52.245-1(f)(1)(ii) to “stamp, tag, mark” GFP
- Our system exceeds the Defense Federal Acquisition Regulation Supplement (DFARS) 252.245-7001(b) that GFP receive a “tag, label, or mark.”
- Our solution exceeds NASA’s NFS 1852.245–74(c)(2) which states you must use a human readable “Unique Identification Number (License Tag)” affixed to GFP
- Our strategy complies with DFARS Case 2015-D035 (April 30, 2019) which requires compliance with FAR 52-245-1 for repair, maintenance, overhaul, or modification regardless of the unit acquisition cost
