

WHY YOU NEED US

My Property ID Registry is a globally traceable, internet-based, chain-of-custody database for government property that works as a security system and lost and found.

- We provide a turnkey, miniaturized, enterprise asset management (mEAM) system for very small businesses and tiny municipalities.
- We assist larger institutions in upgrading the marking and tagging of government property, and making upgrades to webpages and backend databases.
- We aid law enforcement and honest citizens to repatriate lost, missing and stolen valuables.

SPECIFIC REGULATIONS

My Property ID Registry exceeds the following government regulations:

- DFARS Case 2015-D035 (April 2019): regardless of the unit cost, Federal Acquisition Regulation (FAR) clause 52.245-1, must be used in all purchase orders for repair, maintenance, overhaul, or modification of government property.
- Defense Federal Acquisition Regulation Supplement (DFARS) 252.245-7001(b): the contractor shall tag, label, or mark government-furnished property.
- Federal Acquisition Regulation FAR 52.245-1(f)(1)(ii): identify as government owned in a manner appropriate to the type of property (e.g., stamp, tag, mark, or other identification).
- NASA's NFS 1852.245-74(c)(2): use human readable, "Unique Identification Number (License Tag)," affixed to government property.
- Green Book 2 CFR Part 200.313(d)(3): use a control system to ensure adequate safeguards to prevent loss, damage, or theft of government property.
